

FAMILY MEDICINE RESIDENCY OF IDAHO (FMRI)

Ted Epperly, M.D., Program Director and C.E.O.

HISTORY: Established in 1975 as a 501(c) 3 non-profit Family Medicine Residency training program and the first graduate medical education in the history of Idaho. FMRI is affiliated with the University of Washington School of Medicine. In June 2007, FMRI became a Federally Qualified Health Center Look-Alike through the Bureau of Primary Health Care, Health Resources and Services Administration.

- Mission to produce outstanding, well-trained family physicians and to provide medical service to patients.
- Fully accredited, three-year Family Medicine Residency (Boise).
- Fully accredited, three-year Family Medicine Rural Training Track (Caldwell).
- Fully accredited, one-year Sports Medicine Fellowship.
- Started with a 4-4-4 program, now 12-11-10, going to 13-13-12 by 2010, and 15-15-15 by 2013.
- Service – 46,000 outpatient visits per year and 20,000 inpatient visits per year.
- Medical research division with ongoing HRSA Title VII Federal Training grants amongst others.
- Electronic Medical Record in conjunction with ISU FM Residency.

RECRUITMENT:

- FMRI has consistently had around 300 applicants for its positions and has a 100% match rate of its Boise positions for the entire 35 year history of the program. This is not true of many other family medicine residencies across the country. The Caldwell Rural Training Track has matched all but one position in ten of its 13 year history.
- FMRI will extend approximately 70 interviews to fill its 13 positions.

FUNDING: Current funding is approximately \$11.8 M (FY'09) provided by the following:

Patient Revenue	Revenue from services	\$5,298,033	45%
Hospital Contribution	St. Luke's RMC	1,983,837	17%
Hospital Contribution	Saint Alphonsus RMC	1,797,173	15%
Grants & Research	Revenue from grants and research	1,315,047	11%
State	State Board of Education	888,400	8%
RTT	Rural Training Track's (Caldwell & Magic Valley)	342,020	3%
UPL	Upper Payment Limit funds	233,000	1%
		11,857,510	

EXPANSION/GOALS:

- FMRI Boise Core Program: Increase FMRI Core Program in Boise from 10-10-10 to 12-12-12 over next five years.
- Caldwell Rural Training Track will remain at 2-2-2.
- Magic Valley Rural Training Track: Our first intern will begin July 1, 2009 and will begin their training in Boise and transfer to Magic Valley Rural Training Track during their second and third years while completing their first year in Boise. This program will thus be 1-1-1.
- Request to Idaho Millennium Fund for OB Fellowship in conjunction with Clean Start Program.

RETENTION:

- Since inception, 221 residents have graduated and 124 remain in Idaho (56%), of these, 57 have stayed in rural or underserved Idaho (46%).

PROGRAM OUTCOME:

- The investment by the State of Idaho in FMRI's future family medicine expansion will help in building the needed primary care workforce for Idaho.
